**Mens Quartz Wrist Watch
Couture**

-2-

How to set the Chronograph:

The chronograph can be started and stopped each time button “A” is pressed. Pressing button “B” resets the chronograph to 0.

How to set the Time:

Pull the crown to position 2 and adjust the watch, replace the crown to its position 0.

How to set the Date:

Pull the crown to position 1 and adjust the date, replace the crown to its position 0.

How to set the Day

Pull the crown to position 2 and turn clockwise or anti clockwise through 24 hour until desired day shown.

-3-

Water tightness and shock resistance:

The watch is protected against shocks when in normal use. However, it should not be subjected to extremely heavy shocks as will occur when it falls onto a hard ground, for instance. This can damage the watch movement.

The designation “3,5 or 10 ATM Water Resistant” on the bottom of the casing means that this watch may be worn while you swim, take a shower or wash your car. However, the watch is not for use by divers.
